When Avrom Was A Small Boy Of 3

When Avrom was was a small boy of three,

He looked at the stars and the sea,

He thought the creator was in the sky the sun or the moon so high,

But after in its time each one did set,

He knew there was someone greater yet,

Then he understood and was filled with love,

He knew Hashem Echod was above,

Then he understood and was filled with love,

He knew Hashem Echod was above.
